

came up about 8 A.M. with provisions. I received three letters from home. Corrected the line back to within three fourths mile of Twp corner. Sunshine and pleasant the next forenoon. Run three and three fourth miles, camping on the creek, one mile north of the Whitefish River. The next day, Sunday Oct. 30th was clear and pleasant. We run north and made the closing at 50 chains and 25 links. Returned to camp at 1 P.M., Oct. 31st is a fine day and we started down the line, going 9 miles and camping 1 mile and 34 chains north of the town corner in a big marsh.

Nov. 1st was clear and pleasant. We started down the line a little before sunrise. Passed through three miles of marsh, with water about ten inches deep, and frozen about $\frac{1}{4}$ inch. Arrived at the St. Louis River at noon. We had dinner, then crossed the river in a canoe. Passed down the line $1\frac{1}{2}$ miles south, to the town corner. Met Bakers party there and camped over night. Nov. 2nd was clear and pleasant until 9 A.M. when it clouded up and started to rain. This soon turned to snow and continued to storm all day. We reached camp at 1 P.M., and tried to dry out, being wet through and very cold. Nov. 3rd was cold and frosty. Started for Perch Lake early, but as we had no canoe to cross, we had to go about four miles around. Arrived at camp at 2 P.M.

Nov. 4th we went out with Mr. Baker and commenced to subdivide Twp 49 range 19. Run three miles of line. Had to travel some 8 miles to do it. Returned to camp, where we arrived at sunset. On Nov. 5th we went out and run three eights of a mile, when it commenced snowing, and we returned to camp. About one inch of snow fell. Sunday the 6th was pleasant. Mr. Howe went down Junction. Remained in camp all day mending.

On Nov. 7th it was rather stormy, but we went out on the line three miles west. It commenced to snow and we built a fire and wasted about an hour, then started north one mile, then east sixty chains. Then we started for camp. Having been in the marshs most of the day, we were soaked. On the 8th we commenced meandering Perch Lake, but as it was snowing and raining all day we did very little.

We finished meandering Perch Lake on Nov. 9th. Then we run one and one quarter miles of line along the south line of Fondulac Reserve, then north four chains to the line of the R.R. There we found a lake, and as it was late, we started for camp, where we
