

Gardens by the Bay

Opened in 2012, this botanical park is on all reclaimed land that was once sea.

Panoramic of the park from the Marina Sands Casino.

The man made trees have vines growing on them to eventually create a totally new living tree.

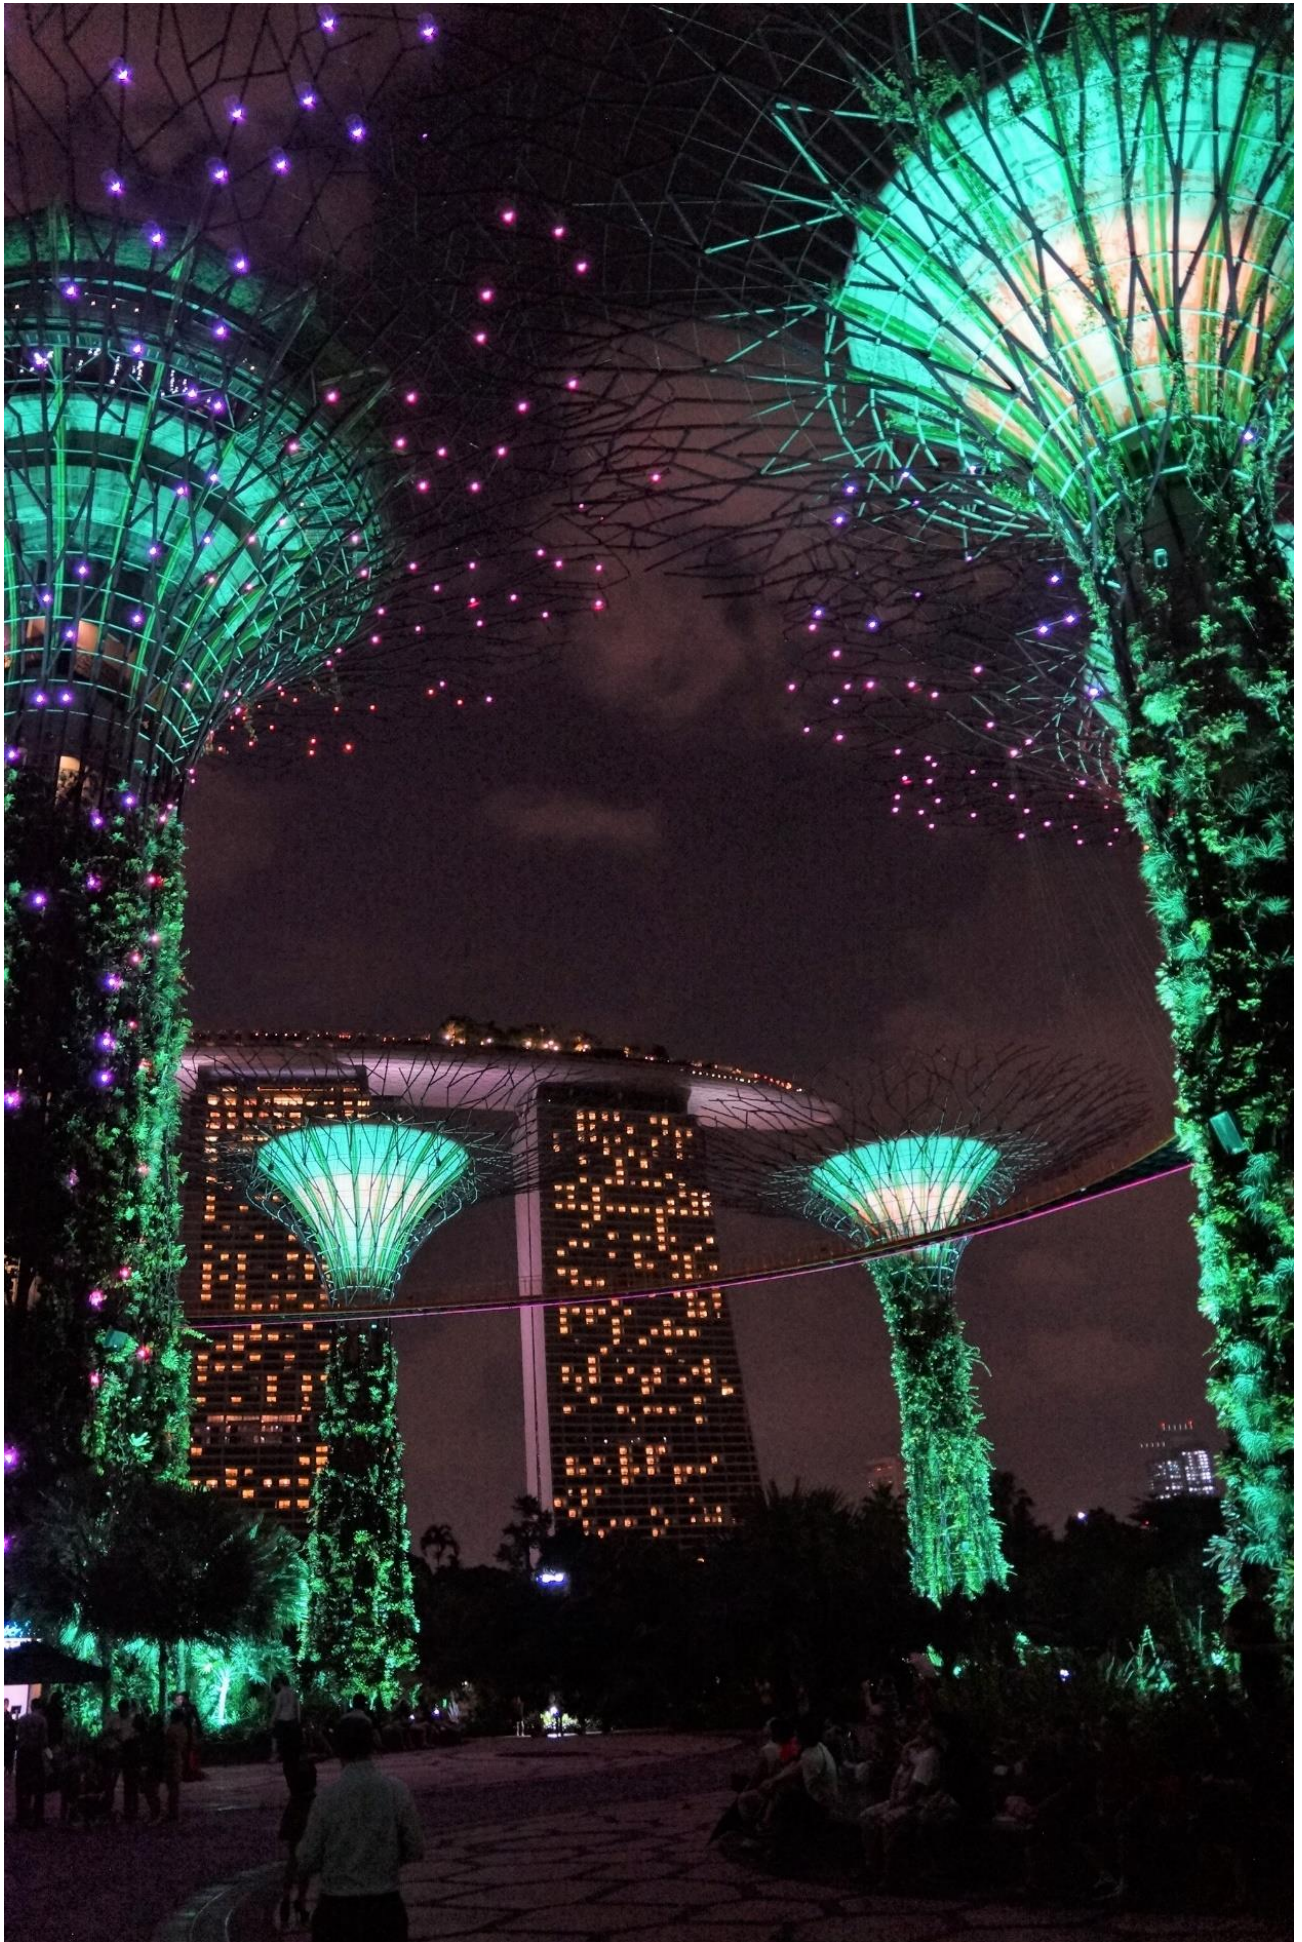

The Gardens has a clock made from flowers and a walkway from above.

At night the park has a light show with fantastic music.

Gardens by the Bay at night from the Marina Sands Casino and below from the Singapore Flyer.
